Kabel Deutschland pulls forward growth investments and proposes a dividend of €2.50 per share for the current fiscal year

Unterfoehring, February 20, 2013 – Today, the Management Board of Kabel Deutschland Holding AG (‘The Company’) approved to pull forward growth related network investments of €300 million. In order to enable even faster growth, these funds will be spent over the course of the next two fiscal years in addition to the Company’s existing investment plans. Previously, these investments were envisaged for later years. The additional funds provide for earlier network upgrades for high speed internet, video on demand and WiFi products as well as a significant expansion of network capacity. This will further strengthen Kabel Deutschland’s position to benefit from the sizable growth potential in the German broadband and TV market.

The Management Board also announced its intention to propose a dividend of €2.50 per share for the fiscal year 2012/13. This represents an increase of €1.00 compared to the previous year’s dividend. The 2012/13 dividend will be payable following the Annual General Meeting in October 2013.

The financials for Kabel Deutschland Holding AG’s third quarter and nine months of the fiscal year 2012/13 will be published today in a separate Release.
